

STATISTICS: TOP 10 WORLD AIRPORTS

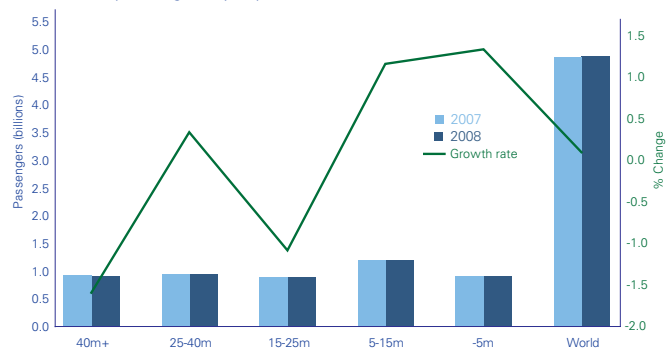

www.aci.aero

ACI members operate over 1679 airports worldwide – a rich diversity that stretches from the largest international hubs to the smallest airports in remote locations. These airports collectively welcome millions of passengers on a daily basis, which in 2008, meant that 4.9 billion people arrived at and departed from the world’s airports. Long-term traffic forecasts predict that, by 2025, that number will double to over nine billion passengers.
